*American Scholar Symposium's Speakers to Include Former Bush and Ford Cabinet Members, Professors from Prominent Universities and **Surprise Celebrity Guests***

Los Angeles -- [Alex Jones](#) will host [the American Scholars Symposium: 9/11 + The Neo-Con Agenda](#), the largest and most powerful conference ever exposing truth about what really happened on September 11<sup>th</sup> from June 24-25<sup>th</sup> at the Sheraton Los Angeles Downtown (711 South Hope Street). Jones and the conference's speakers will hold a press conference on the first day of the event at 10:00 AM in the Sheraton Los Angeles Downtown ballroom.

**Jones says, "The criminal elite in control of our government planned and executed the September 11<sup>th</sup> attacks as a pretext to steal our freedoms and turn America into a police state! This conference will expose for once and all the truth about what really happened on September 11."**

Americans are angry about the government lies and the cover-up about who was behind the attacks and how and why they happened. In March of this year, Actor [Charlie Sheen appeared on The Alex Jones](#) to add his voice to the many questioning the official version of the [September 11<sup>th</sup> attacks](#), calling for an independent investigation of the attacks and the circumstances surrounding them. ([Listen to the entire interview here](#))

Jones' interview of Sheen sparked a series of appearances by Jones on *CNN Headline News' Showbiz Tonight*, which polled its audience, revealing that 83% of those who voted agreed with Charlie Sheen that the government covered up the real events of September 11th (44, 519 votes). ([Click here for a full article and a screenshot of the poll](#))

The results of this poll came as no surprise, as previous polls reflect the American public's waning belief of the official 9/11 story. In August, 2004, for example, [a Zogby poll](#) revealed that half of New Yorkers believe that US leaders had foreknowledge of the impending 9/11 attacks and "consciously failed to act." In the same poll, two in three (66%) New Yorkers (and 56.2% overall) called for another full investigation of the "still unanswered questions" by Congress.

Despite the official story and cover-up, Americans now know that the Bush family is intimately involved in the business dealings of the Bin Laden family. Americans are aware of the irrefutable fact that Dick Cheney gained sole power over the nation's emergency air defense only a few months before 9/11 and had NORAD stand down on that fateful day. Recently declassified documents like "Operation Northwoods" which illustrates US government plans to hijack passenger planes to create a false terrorist threat and incite war are waking people up to the fact that what happened on September 11<sup>th</sup> is just another in a long line of false flag, US government-sponsored terror operations.

Over 1,000 tickets to the conference will be sold, as concerned Americans from across the country will converge in Los Angeles to decry the official 9/11 story and to glean the truth about the terrible attacks from respected speakers, including Documentary Filmmaker/Syndicated Radio Host Alex Jones, Hollywood movie producer Tommy Pallotta, former CIA Intelligence Advisor to Reagan and George HW Bush and founder of the [Veteran Intelligence Professionals](#)

[for Sanity](#), Ray McGovern, former Director of Advanced Space Programs Development for the [U.S. Air Force](#), Lt. Col Robert Bowman, founder of the Scholars for 9/11 Truth Professor James Fetzer, BYU Physics Professor Steven E. Jones, Filmmaker Dylan Avery, Activist, Historian, and international terrorism expert Webster G. Tarpley, and the Hero of 9/11 William Rodriguez who single handedly saved 15 people from the collapsing Twin Towers.

Father of the 9/11 truth movement Alex Jones was recently cited as being the [William Jennings Bryant of the 9/11 band](#)" in a recent [New York Times article](#). He has produced 13 documentary films, including [Martial Law](#), the definitive September 11<sup>th</sup> film covering how the government has used terror as a pretext to metamorphose America into a Police State and providing an in-depth analysis of the collapse of Building 7.

His latest film, "Terror Storm," which will debut at the American Scholars Symposium covers government-sponsored terrorism from September 11 to the London Bombings. Jones hosts a national radio show weekdays on over 80 FM and AM stations, and is a frequent guest on Coast to Coast AM. He has been featured as a prominent figure in the 9/11 Truth Movement in such publications as the *New York Times*, *Vanity Fair*, *Popular Mechanics* etc. and has recently appeared on *MTV*, *CNN*, *CBC* etc. He also appears in Warner Brother's Independent's "A Scanner Darkly," (a film starring Keanu Reaves and featuring Wynona Ryder, Robert Downing, JR, & Woody Harleson). A portion of "A Scanner Darkly" will screen at the American Scholars Symposium (this is prior to its general release July 7, 2006).

Please call Ryan at 512-291-5750 to schedule an interview with Jones prior to or during the conference. There will be a press conference for all media at the start of the Symposium at 10:00 AM, June 24 in the Sheraton Los Angeles Downtown Ballroom.
